

FOR IMMEDIATE RELEASE

**SHOWCASE BUSINESS CENTERS, INC. DESIGNS AND DEPLOYS
EZ TRANS 9000, AN INNOVATIVE COPY TRANSACTION DEVICE**

TORRANCE, CA - (July 11, 2008) - Showcase Business Centers, Inc. (Showcase), a leader in providing business center services to the hospitality marketplace, has announced the design and deployment of the EZ Trans 9000, an innovative transaction device that fully automates color and black & white copier systems with self-service, pay-for-use capability and automatic receipt printing.

Implemented by Showcase's Transaction Services division, the EZ Trans 9000 was designed to allow copy machine owners to conveniently track its customer's usage statistics. Since the EZ Trans 9000 offers centralized authorization and back-end management of pricing information, the device can conveniently distinguish between color, black & white, letter, legal, A size, B size, and duplex, and then bill each at the appropriate rates. The EZ Trans 9000 makes it easy for users to pay via credit card, cash, coins, pre-paid card, or account codes. Additionally, the EZ Trans 9000 is compatible with the Blackboard® Commerce Suite's student ID cards.

"To quote the wise business adage, we decided to 'find a need and then fulfill it,' "said Paul Rajewski, CEO of Showcase. "Several of our clients wanted a single, centrally-managed device that had the capability to track each user's copy transactions. The EZ Trans 9000 was designed for that very purpose. Instead of having customers run from one machine to the next, they can now conveniently pay for their copy needs from one device."
