

FOR IMMEDIATE RELEASE

SHOWCASE BUSINESS CENTERS, INC. TO PROVIDE ENHANCED SERVICES THROUGH ORGANIZATIONAL CONSOLIDATION WITH NEPTUNE NETWORKS

TORRANCE, CA. – (May 6, 2008) – Showcase Business Centers, Inc., announced it has reached an agreement with Neptune Networks, Inc. that will add 200 high-speed Internet airport stations to Showcase’s overall computer network, consequently bringing its total inventory of controlled devices to 1,000. Currently featuring approximately 800 high-speed Internet enabled computer stations, printers, copiers and fax machines, Showcase Business Centers, Inc. is a leader in providing automated business center services to premiere hotels located throughout the United States and Canada.

Paul Rajewski, CEO of Showcase Business Centers, Inc., indicated that the arrangement would present expanded locations and services for its client’s business needs. “Through our affiliation with Neptune Networks, Showcase Business Centers is now in position to offer clients extremely reliable, easily accessible broadband Internet and telecommunications services to airport travelers within the airline premier club and airport departure gate areas,” said Rajewski.

Since 1999, Neptune Networks has been the market leader in providing high-speed Internet service via 200 computer stations installed across 14 major United States airports. Designed for comfort and convenience, the airport stations offer sit-down, self-contained Internet kiosks with a 15” viewable screen, and CAT5 data port connections for laptop computers. Neptune Networks also manages wired and wireless Internet services for various airline clubs.

"The agreement with Showcase Business Centers, Inc. made absolute sense in terms of providing our clientele with seamless business solutions at both hotels and airports. The joint venture also produces the opportunity for increased advertising revenue by offering advertisers access to a network of over 1,000 stations," said Jack Driscoll, CEO of Neptune Networks, Inc.

Reliable product configurations and a serious commitment to customer service are the foundations from which both companies were founded. Rajewski founded Showcase Business Centers, Inc. in January 2001 at the request of a prominent Los Angeles-based hotel. Through his 12 years of successful experience at owning a computer dealership, his goal was to provide reliable and comprehensive business center solutions to the hotel industry. Driscoll, former Executive Director of Los Angeles World Airports (LAWA), began serving with Neptune Networks in 2000 as part of his aviation-related consulting work with numerous airlines and airports.
